PHENOLIC

Z-LOCKER

PHENOLIC LOCKERS are the material of choice when a high degree of design flexibility is desired or where durability and strength are required.

These lockers are fabricated to stand the test of time. Phenolic is impact, water and corrosion resistant, and does not support bacteria. The dense material, combined with durable brackets and fasteners, stand up to the most extreme conditions of moisture and humidity.

VARIOUS FEATURES* MAY INCLUDE:

- Durable knuckle hinge
- Recessed handle
- 10 designer Black Core colors
- 6 designer Color-Thru colors

*Features vary based on style of locker chosen

PLASTIC

Z-LOCKER

PLASTIC LOCKERS are ideal for indoor high-humidity applications, as these virtually maintenance-free lockers will never rust, rot, or corrode.

Their durable plastic construction features solid color throughout, so even scratches are hard to see.

VARIOUS FEATURES* MAY INCLUDE:

- All components constructed of solid plastic (HDPE) for strength and durability
- Full length, powder coated, continuous hinge for smooth operation
- Rabbeted joinery with durable locking pins for long term integrity
- Backed by a 15-year warranty
- Self-latching door for safety and security
- Full length latch engagement improves tamper resistance

*Features vary based on style of locker chosen
