

About Brey-Krause Manufacturing Co.

Located in Bethlehem, PA

Brey-Krause manufactures a comprehensive line of commercial washroom accessories that are **100% made in the USA**. Since 1909, Brey-Krause has maintained a reputation for producing quality products at competitive prices in a timely manner. **With over 100 years** of experience, Brey-Krause continues its tradition of manufacturing excellence.

Innovative engineering is a hallmark of Brey-Krause products, from cost-effective product enhancements to installation improvements. Our engineers will assist in the design, development and production of special and standard products. The 68,000 square foot manufacturing facility is equipped with a full range of state-of-the-art fabrication equipment. Brey-Krause has the manufacturing expertise and flexibility to resolve problems and satisfy customer needs.

Skilled customer service representatives provide expert advice and product information for all of your project needs. Product samples, technical data sheets, and prompt price quotes are available upon request.

Visit us at **www.breykrause.com** for more details.

Distributor Package

The distributor package is a grouping of our most popular products. These are the frequently ordered items that we feel stocking distributors should have access to at all times. Every product in the distributor package is in stock on our shelves and ready to ship the same day your order is placed (some restrictions apply).

5 Pack Grab Bars

Brey-Krause maintains "ready to ship" stock on 1-1/4" (D-77 Series) and 1-1/2" (D-78 Series) diameter straight grab bars in several lengths and are packaged 5 bars to a box.

D-7812-05-SS 18" 5 pack

D-7813-05-SS 24" 5 pack (D-77 available)

D-7816-05-SS 36" 5 pack (D-77 available)

D-7815-05-SS 42" 5 pack (D-77 available)

D-7817-05-SS 48" 5 pack (D-77 available)

D-7821-05-SS 30" 5 pack

Universal Frame Mirror

Convert easily to fixed or adjustable tilt mirrors thereby reducing your inventory carrying costs.

(See Mirrors section for size details)

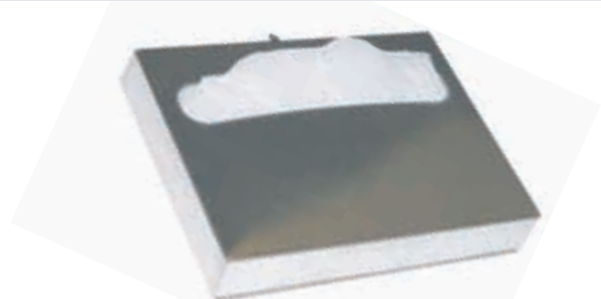

Double Roll Toilet Tissue Dispenser (Surface Mount)

C-1040-SS

22 ga. stainless steel, holds two 5 1/4" dia. rolls, pivoting front cover equipped with tumbler lock.

4 13/16" x 13 1/4" x 4"

Surface Mount Seat Cover Dispenser

C-1031-SS

Unit is fabricated of 22 ga. stainless steel with a satin finish. It is fitted with a tumbler lock, and hinged with a stainless steel piano hinge for easy loading of contents.

11-1/2" H x 15" W x 2-1/2" Depth

C-Fold Paper Towel Dispenser

C-1030-SS

Unit is fabricated of 22 ga. stainless steel with a satin finish. It is fitted with a tumbler lock, heavy duty stainless steel piano hinge, and a refill indicator slot on both sides of the cabinet.

14-1/2" H x 11" W x 4" Depth

Sanitary Napkin Disposal

C-1010-SS

Unit is fabricated of 22 ga. stainless steel with a satin finish. The bottom panel is fitted with a tumbler lock and hinged with a stainless steel piano hinge for easy removal of contents. The lid is also attached with a stainless steel piano hinge.

10-1/2" H x 8-7/8" W x 3-7/8" Depth

Grab Bar Flange Styles

Grab bars are fabricated from 18 ga. (.049) stainless steel tube and are available in a variety of flange styles (depicted below) and bar configurations (on next page).

To Order:

Specify the type of flange and tube diameter required by flange number (below).

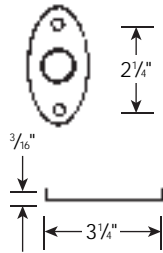

Specify the shape and size of bar by bar # (next page).

Choose the finish of the bar: SS = Satin Finish BS = Bright Stainless (Other finishes and Powder Coating are available.)

Optional: choose a non-slip gripping surface: P = Peened K = Knurled

Example: Flange # + Bar # - Finish - Grip
D-72 13 SS P = D-7213-SS-P

Three 1/4-20 set screws in lip

Grab Bars

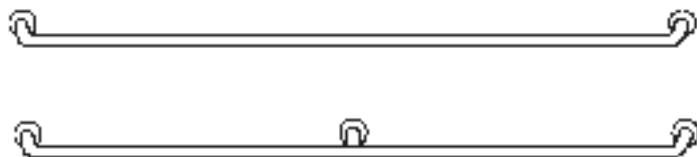

NOTE: Grab bar lengths and bends can be modified to meet architectural requirements.
 Grab bar numbers in red are fabricated with slip supports for installation flexibility. Large grab bars can be specified with two piece construction and splice kits to allow shipment via UPS.
 Welded toilet paper holders can be factory installed on most bars.

Bar Numbers

Straight grab bars - numbers are as follows:

10 = 12" straight	14 = 32" straight
11 = 16" straight	15 = 42" straight
12 = 18" straight	16 = 36" straight
13 = 24" straight	17 = 48" straight
21 = 30" straight	

Specify center supports when required.

Mirrors

Brey-Krause universal frame mirrors set a new standard in quality and installation ease. The innovative design and fabrication method results in a mirror with superior breakage and moisture resistance.

Mirrors are fabricated from one piece, 18 ga., 5/8" x 5/8", satin finish, stainless steel angle frame with tightly mitered corners. Mirror edges are protected by cushioned adhesive strips to prevent damage. The mirror back is galvanized steel and sealed by continuously applied industrial adhesive. Mirror is secured to wall by 2 vandal/theft resistant brackets. The 1/4" float glass mirror is silvered and copper electrolytic plated by galvanic process. Mirrors meet Fed. Spec. DDM-411, DD-G-451d, ANSI 2-97.1-1983 and CPSC-Cat 2-16 CFR.

Universal Frame Mirror

T-1016-20-SS	16" Wide X 20" Mirror
T-1016-24-SS	16" Wide X 24" Mirror
T-1018-24-SS	18" Wide X 24" Mirror
T-1018-30-SS	18" Wide X 30" Mirror
T-1018-36-SS	18" Wide X 36" Mirror
T-1024-30-SS	24" Wide X 30" Mirror
T-1024-36-SS	24" Wide X 36" Mirror

Note: Custom mirror sizes available for large quantity projects. Call the factory for details and quotes.

3-in-1 Mirror

With the unique and innovative Brey-Krause mirror design, you can convert your universal frame mirror into either a fixed tilt mirror or an adjustable tilt mirror.

The standard mirror snaps easily into either frame.

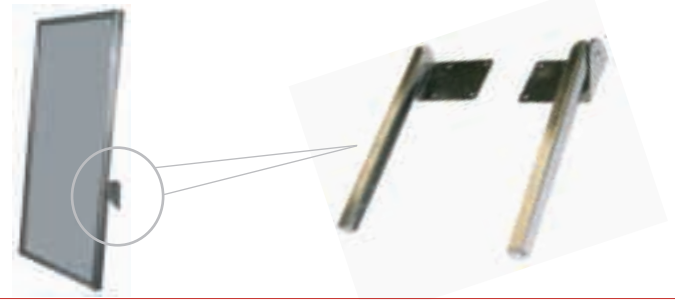

See the **Reference Section** for more information.

The following frames require the Universal Frame Mirror listed above.

Adjustable Tilt Mirror Brackets

Use the Adjustable Tilt Mirror Brackets to convert the universal frame mirror to an adjustable tilt mirror.

T-1050-SS
Adjustable Tilt Mirror Brackets

Fixed Tilt Mirror Frame

Converts Brey-Krause universal frame mirrors (see sizes available below) to a fixed tilt mirror.

Fixed Tilt Mirror Frame (Frame only)

T-1118-30-SS	18" Wide x 30" Tall Fixed Tilt Frame
T-1118-36-SS	18" Wide x 36" Tall Fixed Tilt Frame
T-1124-36-SS	24" Wide x 36" Tall Fixed Tilt Frame

Fixed Tilt Mirror Kit (Frame and mirror)

T-1218-30-SS	18" Wide x 30" Tall Fixed Tilt Mirror Kit
T-1218-36-SS	18" Wide x 36" Tall Fixed Tilt Mirror Kit
T-1224-36-SS	24" Wide x 36" Tall Fixed Tilt Mirror Kit

Mirror Shelving

Exposed Mount Shelf (18 ga.)
K-4031-16-SS 5" deep x 16" wide
K-4031-18-SS 5" deep x 18" wide
K-4031-24-SS 5" deep x 24" wide

Shelves are constructed from satin finish, stainless steel with a 3/8" front lip. Integral brackets are screw mounted for added strength. Shelves are fabricated from water-jet cut blanks with smooth edges for added safety.

Concealed Mount Shelf (16 ga.)
K-4032-16-SS 5" deep x 16" wide
K-4032-18-SS 5" deep x 18" wide

Brass Accessories

The 3700 series brass bathroom accessories are fabricated from solid brass and available in a satin chrome, bright chrome, or natural brass finish. Natural brass finishes are clear powder coated to preserve the finish and provide lasting beauty.

Accessories are mounted with a mounting bracket which is screwed to the wall. The escutcheon plate then covers the mounting bracket and is fixed in place with a set screw in the post.

22 ga. stainless steel, holds two 5 1/4" dia. rolls, pivoting frontcover equipped with tumbler lock.
4 13/16" x 13 1/4" x 4"

Mounting Systems

Recessed units can be mounted using either a dry wall clamp, or tile-type lugs (sold separately).

Vertical Dry Wall Clamp S-2619-01 (for use with S-2661 and S-2661-01)

Dry Wall Clamp S-2609-01

Tile Type Lugs S-2601-01

Note: Double dispensers require two (2) clamps / lug sets per unit

Shower and Tub Seats

Shower and tub seats are constructed to meet A.D.A. accessibility guidelines. Folding shower seats utilize a self-locking mechanism. One-piece phenolic tops are 1/2" thick. White poly tops are 1/2" thick, and stainless steel tops are 14 gauge. Seat frames are fabricated from stainless steel. Other models and sizes are available upon request.

The unique Brey-Krause design eliminates having to stock multiple shower seats or pre-determine the handing required. The Brey-Krause "reversible handing" shower seats enable one shower seat to be simply installed in either the left-hand or the right-hand configuration. **See the Reference Section in the back of the catalog for a detailed explanation.**

9" x 21-1/2" removable stainless steel tub seat fits tub with 3.5" wide lip with 16 ga. stainless steel top

S-6095-SS

11 ga. 8" x 23-3/4" removable stainless steel tub seat with integral stiffening flange

Note: All removeable tub seats require that a dimensions sheet be completed when ordering. Contact factory for details.

Shower Rod Flanges

Flat, round exposed mount flange with welded collar for added strength. One flange has a set screw (supplied) hole to the secure shower rod. Flange is .180 thick x 3" dia. stainless steel.

S-4673: 1" Hole
S-4674: 1-1/4" Hole
Finishes: SS, BS

Formed, round exposed mount flange with welded collar for added strength. One flange has a set screw (supplied) hole to the secure shower rod. Flange is .120 thick x 1/2" depth x 3" dia. stainless steel.

S-4640: 1" Hole
S-4642: 1-1/4" Hole
Finishes: SS, BS

Formed round exposed mount flange (no welded collar). Flange is .120 thick x 1/2" depth x 3" dia. stainless steel.

S-4651: 1" Hole
S-4656: 1-1/4" Hole
S-4657: 1-1/2" Hole
Finishes: SS, BS

Solid one piece round exposed mount flange (light & heavy duty). One flange has a set screw (supplied) hole to the secure shower rod. Made from cast brass.

B-2960: 1" Hole (light) - 2.219 dia.
B-2961: 1" Hole (heavy) - 2.562 dia.
B-2965: 1-1/4" Hole - 2.625 dia.
Finishes: BC, SC, SB, BB

Formed light duty round exposed mount flange with formed collar. Identical pairs. Flange is 2.75" dia. stainless steel.

S-4660: 1" Hole
S-4665: 1-1/4" Hole
Finishes: SS, BS

Formed light duty round exposed mount flange (no formed collar.) Identical pairs. Flange is 3" dia. x .420" depth stainless steel.

S-4661: 1" Hole
S-4666: 1-1/4" Hole
Finishes: SS, BS

Formed round concealed mount flange with welded collar for added strength. One flange has a set screw (supplied) hole to the secure shower rod. Zinc plated mounting plate and set screws supplied. Flange is .120 thick x 1/2" depth x 3" dia. stainless steel.

S-4669: 1" Hole
S-4671: 1-1/4" Hole
Finishes: SS, BS

Formed, round concealed mount flange (no welded collar) Zinc plated concealed mount back plate & set screws supplied. Flange is .120 thick x 1/2" depth x 3" dia. stainless steel.

S-4693: 1" Hole
S-4679: 1-1/4" Hole
S-4698: 1-1/2" Hole
Finishes: SS, BS

Formed, round concealed mount snap-on flange and cover. Flange has a welded collar concealed by snap-on cover. Made from 3" dia. x .078" thick stainless steel.

S-4691: 1" Hole
S-4696: 1-1/4" Hole
Finishes: SS, BS

Shower Rod Flanges, Rods & Accessories

Formed oval concealed mount snap-on flange and cover. Flange has welded light duty collar and is concealed by a snap-on cover that snaps onto flange after mounting. Made from stainless steel.

S-4690: 1" Hole
S-4695: 1-1/4" Hole
 Finishes: SS, BS

Formed round exposed mount break-away flange. Spring loaded design releases shower rod under load. Made from stainless steel. Flange is .120 thick x 1/2" depth x 3" dia. stainless steel.

S-4650: 1" Hole
 Break-away Flange
 Finishes: SS, BS

Solid concealed mount collar flange (supplied) and mounting plate. One flange has a set screw to secure the shower rod. Brass collar screws onto brass mounting plate.

Note: Stainless Steel version is also available (SS, BS)

B-4360: 1" Hole
B-4365: 1 1/4" Hole
 Finishes: BC, SC, SB, BB, SS, BS

Solid one piece exposed mount 45 degree flange. One flange has a set screw (supplied) to secure shower rod. Made from cast brass.

B-2946: 1" Hole
B-2948: 1-1/4" Hole
 Finishes: BC, SC, SB, BB (45°)

Solid one piece 90 degree T-connector. Two set screws (supplied) secure the rod. Made from cast brass.

D-6060: 1" Hole
D-6062: 1-1/4" Hole
 Finishes: BC, SC, SB, BB (Tee)

Curved Shower Rods

Brey-Krause's heavy-duty curved Shower Rods are offset by 6-7/32 inches and greatly increase the space available behind the shower curtain. Their solid construction using heavy-gauge materials and welded flanges protect against vandals and excessive wear. Our curved shower rods a similar design and materials to those used in our grab bars. They are **specified to fit 60" openings** with custom lengths available by special request. Call the factory for more details.

The bars are fabricated from either 1" or 1 1/4" diameter 18 gauge (.049 wall) stainless steel tubing, and available in satin stainless (SS), bright stainless (BS), and several powder-coated finishes.

Note: The shower rod and flanges are sold as one unit.

The Brey-Krause curved shower rod provides unique mounting flanges that **adjust to fit wall openings between 58-5/8" to 61-1/2" width when your opening is not exactly 60"** (custom rod lengths are available upon request)

Rod Sizes:

S-1034-SS

Part number specifies 1" diameter, 18 gauge curved shower rod with 6-7/32" offset and pair of concealed mounting flanges as shown (hardware not included).

S-1044-SS

Part number specifies 1-1/4" diameter, 18 gauge curved shower rod with 6-7/32" offset and pair of concealed mounting flanges as shown (hardware not included).

Hooks

Our hooks are fabricated from stainless steel and solid brass and can be installed for commercial or residential use. Hooks are available in a variety of finishes (see finish code list below). Special hooks and stainless steel hook strips can be fabricated to meet your requirements.

Door Hardware

Brey-Krause door plates, corner guards, and kickplates are generally fabricated from 18 gauge, stain finish stainless steel. Plates are countersunk with holes for mounting. Corner guards, kickplates, and door guards are fabricated for either adhesive or fastener mounting (not included). The standard items are depicted below, however these items can be custom fabricated to your specifications.

4 13/16" x 13 1/4" x 4"

Double Roll Toilet Tissue Dispenser w/ Hinged Hoods (Surface Mount)

C-1040-01-SS

22 ga. stainless steel, holds two
5 1/4" dia. rolls, pivoting front cover
equipped with tumbler lock.
4 13/16" x 13 1/4" x 4"

Security and Vandal Resistant Accessories

Security Mirrors

T-8010-BS 12" x 14"

Frameless one piece exposed mount mirror
16 ga. polished bright stainless steel mirror.

T-8013-SS 12" x 14"

Framed seamless corner construction exposed mount mirror.
16 ga. polished bright stainless steel mirror with
18 ga. satin finish stainless steel frame.

Two Concealed Mount Sizes Available:

T-8014-SS 12" x 14"

T-8014-01-SS 18" x 24"

Security Seats

Stainless steel heavy-duty shower seat capable of supporting over 500 pounds for use in security and bariatric facilities. The seat top is fabricated from 14 ga. stainless steel and available in an L-shape or rectangular-shape. All seat tops lock in the upright position using a locking hasp. (Padlock not included)

S-6204-SS L-Shaped Left Hand- 32" x 23" L-projection

Options

S-6501-SS Rectangular 16" x 32" - Left Hand Locking Hasp

S-6503-SS Rectangular 16" x 38" - Left Hand Locking Hasp

S-6205-SS L-Shaped Right Hand- 32" x 23" L-projection

Options:

S-6502-SS Rectangular 16" x 32" - Right Hand Locking Hasp

S-6504-SS Rectangular 16" x 38" - Right Hand Locking Hasp

Locked in up position
when seat is not used

Installation

To Order Fasteners:

Choose the appropriate mounting kits based on the wall construction and the type of grab bar flanges to be installed. One mounting kit is required for each flange.

Flanges

and concealed flange.

Reference: Railings

To Order Railings:

We can quote most accurately if you supply the railing number, total footage and prints. Our engineers will work with you to help meet your specific design requirements. Railings are available in numerous configurations. The most popular types are shown below. Other types are available by special request.

Railing Number Designations				
Railing Type	Flange	Railing Number		
		1" Diameter	1 1/4" Diameter	1 1/2" Diameter
 Straight Back Slip Supports	A Oval Exposed	D-6583	D-6785	D-7987
	B/C Round Exposed	D-7383 D-4483	D-7485 D-4585	D-7587 D-4687
	D Concealed	D-6983	D-7185	D-7287

	D Concealed	D-6992	D-7194	D-7296
	E/F Snap-On	D-8992 D-7692	D-9094 D-7794	D-9196 D-7896

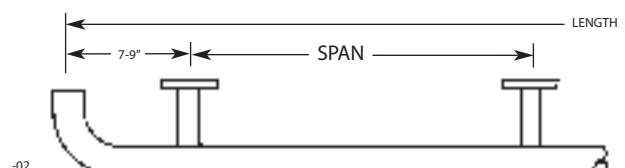

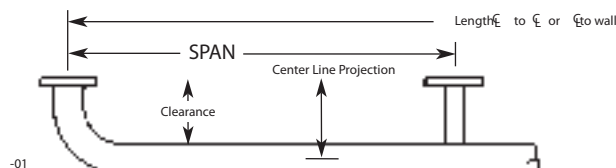

Recommended Construction

Span:

Recommended maximum span between supports is 60" for 1-1/2" tubing and 48" for 1-1/4" tubing. Recommended height is 33".

Wall Clearance:

Railings are fabricated with 1-1/2" wall clearance unless otherwise specified.

Reference: Railings

Component Selection

Tubing:

Railings are generally fabricated from 18 gauge (.049) satin finish stainless steel tubing and are available in 1", 1-1/4" or 1-1/2" outside diameter. Brass tubing and other finishes are available by special request.

Flanges: (See grab bar mounting kits in the Technical Notes for flange details)

Flange types (A, B, & C) are exposed screw mount. Type (D) has a concealed flange which locks to a tenon plate with stainless steel set screws after the tenon plate has been mounted. Types (E & F) are snap-on flanges which install like the exposed flanges. Snap-on flanges have factory installed covers which snap over the flanges completely concealing the mounting screws. Other flanges are available by special order.

Ends:

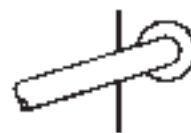

Flanged end returns (-10) are the most common railing ends specified. (-15) stops approximately 1/4" from the wall and requires a support within 7" - 9". An adjacent wall mount (-40) may be used on a surface 90 degrees to the axis of the railing providing there is a sufficient space for mounting the flange.

-10
Flanged End Return

-15
End Return

-40
Adjacent Wall Mount

Supports:

Supports can be welded directly to the railing or can be the slip type which allows them to be positioned in the field. 18 gauge x 1" diameter tubing is used to fabricate underslung (-20) & (-25) or straight back (-30) & (-35) supports. The recommended maximum span between supports is 60" for 1 1/2" tubing and 48" for 1 1/4" tubing.

Welded Support

Bends:

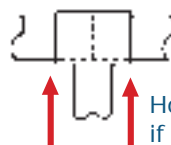

Railings can be fabricated to fit a wide variety of corridors. Bend angles are available to accommodate changes in direction as well as elevation.

Joints & Sectioning:

Railings can be fabricated up to 20 foot lengths upon request. Two sections of tubing can be joined using (-20) or (-30) slip supports (-75) with sheet metal screws or epoxy or by using an internal sleeve (-70) with epoxy adhesive.

Reference: Reversible Shower Seat

Construction:

Brey-Krause L-shaped A.D.A. compliant shower seats are available with reversible handing and a choice of seat top. Reversible shower seat tops may be specified with a one piece ivory or woodgrain phenolic top or with a solid white poly top. The phenolic tops have CNC-machined grooves and holes that provide superior drainage and a more natural appearance, particularly the woodgrain finish. The L-shaped seat can be converted to a rectangular seat by removing the handed portion and replacing it with decorative plastic plugs.

Instead of having to stock multiple shower seats or pre-determine the handing required, the Brey-Krause "reversible handing" shower seats enables the handing to be determined during installation.

Right Hand

Left Hand

This innovative design enables one shower seat to be configured in either the left-hand or the right-hand configuration

S-6212-SS
White Poly

S-6279-SS
Ivory-Phenolic

S-6280-SS
Woodgrain Phenolic

Seats are constructed to meet or exceed A.D.A. barrier-free accessibility guidelines. Folding seats utilize a self locking mechanism to help secure them when not in use. Overall dimensions are 32" x 23".

Reference: Mirrors

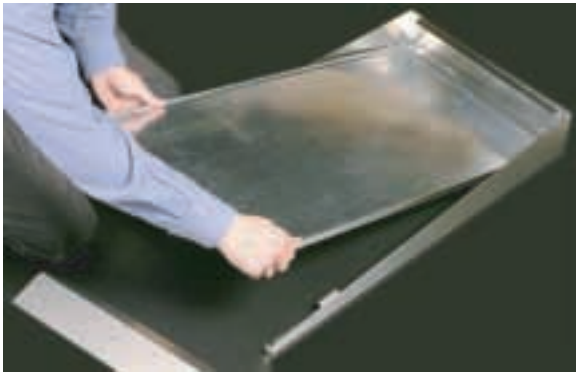

3-in-1 Mirror

With the unique and innovative Brey-Krause mirror design, you can convert your universal frame mirror into either a fixed tilt mirror or an adjustable tilt mirror.

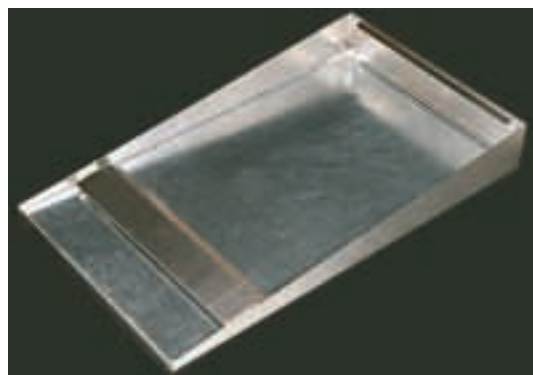

The standard mirror snaps easily into either frame.

How does a universal frame mirror become a fixed tilt mirror?

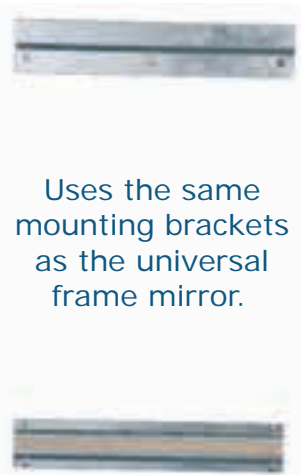

These easy steps.

The universal frame mirror snaps easily into the fixed tilt frame.

Uses the same mounting brackets as the universal frame mirror.

Brey-Krause Mirrors Save You Time and Money!

How? They...

- Install in half the time of conventional universal frame mirrors
- Are a better design and quality
- Are boxed individually and can ship by virtually any means without breakage
- Convert easily to fixed tilt or adjustable tilt mirrors thereby reducing your inventory carrying costs.
