

THE MOST RECOGNIZED NAME FOR RESTROOM PARTITIONS

DORIAN PERSONAL PRIVACY

LEADER IN

**PERSONAL  
PRIVACY**

UPSCALE RESTROOM PARTITIONS

# WHY A METPAR **PRIVACY STALL?**

## **HISTORY**

Successfully meeting ever changing needs of designers, architects, and consumers over the past Sixty-five years has made Metpar the leading full - line supplier of restroom partitions. Our Dorian partitions were originally designed to meet the needs of Eastern cultures where maximum privacy was a necessity. The Dorian series has evolved to meet the growing need for privacy in Western countries where individuals want to increase social boundaries.

## **DESIGN**

Through many years of proven experience, Metpar engineering leads the way with innovative design solutions available in all material types and design configurations.

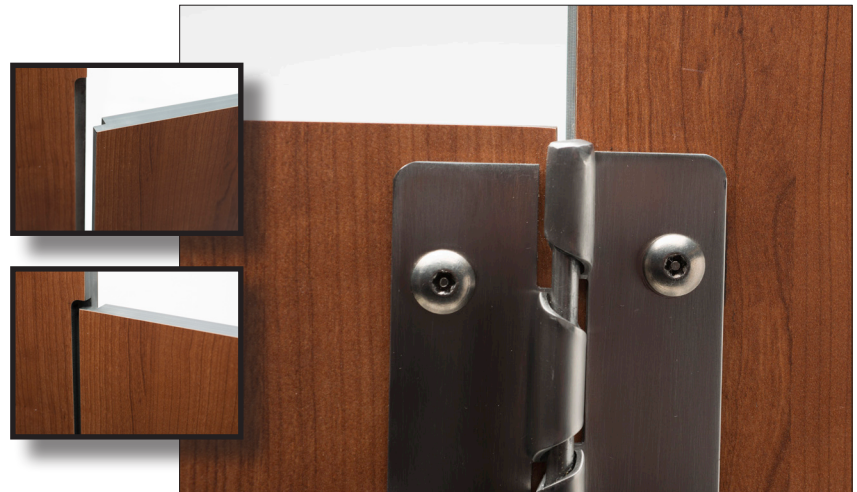

## **SAFETY**

When designing partitions for personal privacy, Metpar also considers the safety of an individual. All privacy stalls are designed with an outside access feature to enable access in case of an emergency.

# WHAT MAKES US **DIFFERENT...**

## PRIVACY SOLUTION FOR **PHENOLIC AND POLLY**

The sightline on the strike side of Phenolic and Polly material is eliminated by the overlapping the edges on the door and the pilaster to provide a nice, clean look from the outside of the stall. The sightline for the hinge side of the door features a continuous 14 gauge heavy - duty multicam hinge that eliminates any unwanted views from the outside of the compartment. The no-sight solution is optional on the Dorian models and is standard on the Dorian Max.

## EXTRUDED **PRIVACY STRIPS**

Extruded Privacy Strips – The sightlines for Powder Shield, Dur-A-Tex, and Stainless Steel partitions have heavy-duty aluminum privacy strips that eliminate any sight gaps on each side of the door. One strip on the latch side acts as a continuous door stop, while the other is positioned between the upper and lower hinge, eliminating any chance of “peeking” into the stalls. Privacy strips are optional on the Dorian model and is standard on Dorian Max.

# YOUR OPTIONS FOR **OUR PRIVACY STALL**

*How much personal privacy is required for your restrooms?*

*Metpar provides partitions solutions to accommodate designs for any level of privacy:*

**STANDARD** - Available in all materials and configurations (floor mounted overhead braced, floor braced, ceiling hung, and floor to ceiling), standard partitions include 58" (1473mm) high doors and panels that are mounted 12" (304mm) above finished floor. Optional packages for no-sight doors and continuous brackets are available.

**DORIAN** - Available in all materials and configurations (floor mounted overhead braced, floor braced, ceiling hung, and floor to ceiling), the Dorian series includes 64" (1626mm) high doors and panels that are mounted 6" (152mm) above finished floor. Optional packages for no-sight doors and continuous brackets are available.

**DORIAN MAX** - Available in all materials and configurations (floor mounted overhead braced, floor braced, ceiling hung, and floor to ceiling), the Dorian series includes 72" (1829mm) high doors and panels that are mounted 6" (152mm) above finished floor. Included with this design are no-sight doors. Optional continuous brackets are available in stainless steel or aluminum.
